Michael Sailstorfer: Heavy Eyes
Carbon 12, Alserkal Avenue Unit 37
8 March–5 May 2022

Painted with eyeshadow pigments collected from cosmetic companies, [Michael Sailstorfer](#)'s new eyeshadow-on-lead series employs unconventional materials to explore social and historical developments informed by industrial production.

One such composition, Heavy Eyes 46 BLUE BROWN (2021) depicts a basin of teal against a rough lead surface, adding a touch of colour to a potentially toxic material.
