Exhibition Just Opened: Darookhaneh Apotheke Pharmacy

<https://www.artrabbit.com/events/darookhaneh-apotheke-pharmacy>

Darookhaneh Apotheke Pharmacy is an Iranian pharmacy run by Sohrab Kashani (IR) and Anahita Razmi (DE), from March 26 to April 16, 2022 at uqbar projectspace in Berlin. It comprises a large installation filled with Iranian pharmaceuticals and medication packages.

Darookhaneh Apotheke Pharmacy aims to question and, to a certain extent, reverse pharmaceutical import/export logics through a spatial and visual display that reproduces Iranian medication packages in a German context. Transcultural (dis)connections, inequalities in distribution, pharma-economic power dynamics, trade restrictions, and legal obstacles are some of the topics echoed in the exhibition. As an Iranian pharmacy in Germany and simultaneously an active and open conversation space, Darookhaneh Apotheke Pharmacy aims to address questions concerning these topics by creating an open platform for discussing global imbalances in health economies and logistics. A series of lectures and conversations will extend the discursive nature of this platform.

Funded by BBK Bundesverband - Neustart Kultur and Berlin Senate Department for Culture and Europe
