Sarah Almehairi

An Emirati artist working across painting, sculpture, and installation, Almehairi has spent the past few years building a vocabulary grounded in abstraction, geometry, and materiality. This year, she showcases *Off Centric Foliage* with leading contemporary gallery Carbon 12.

Her practice is centred on poetic, self-referential systems, using them as frameworks for creating meaning. She sees abstraction as an accessible and expressive language that invites both interpretation and creation. Her latest works build on this evolving vocabulary, offering thoughtful reflections through minimalist forms and materials.
