PHILIP MUELLER

With an education from the University of Applied Arts (Vienna), emerging artist Philip Mueller's cacophonous large-scale paintings fill the space with intense colour and form manipulation reveal narratives that perplex, entertain and entice with references too near to familiarity to ignore in his exhibitions within Austria, the UAE and several international art fairs. Mueller is one of the founding members behind "Wiener Achse" an association for Transnational and Intergenerational exchange of the Arts.

Born in 1988 in Vienna, Austria
Lives and works in Vienna, Austria
